## THE COMPANY

---

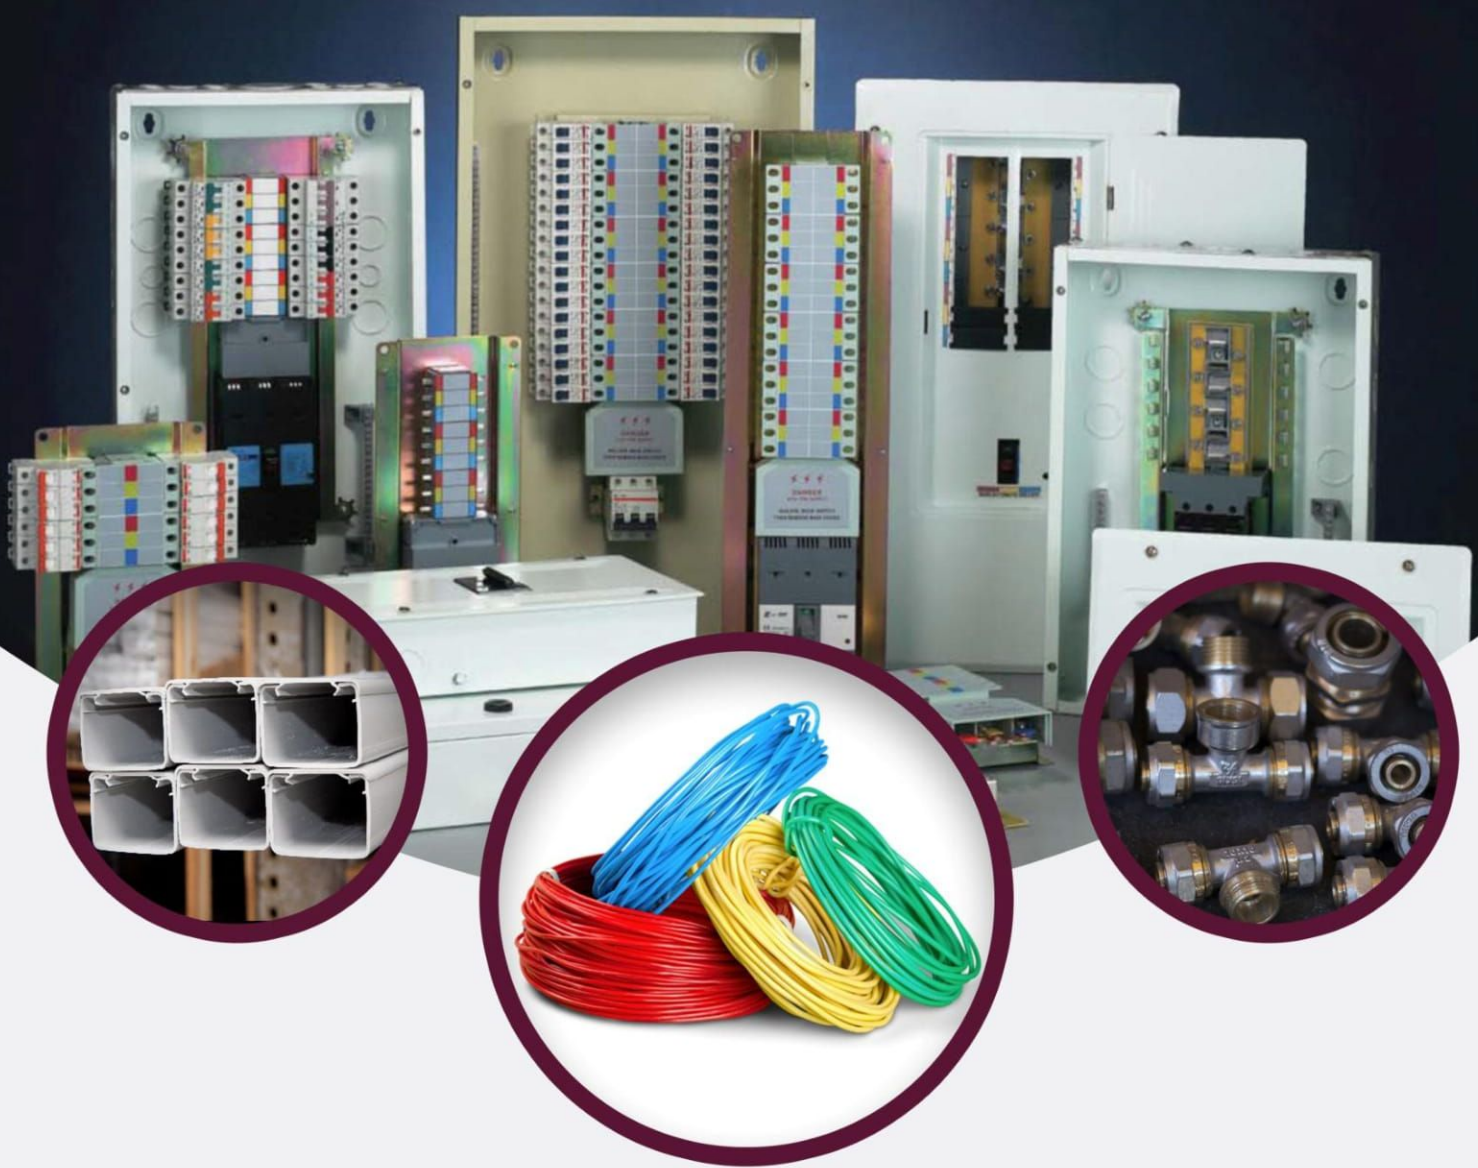

Allied Resources Trading Est. was founded in Kingdom of Saudi Arabia to perform Electrical and general Trading services in the Kingdom of Saudi Arabia and other Gulf countries, with interest on the field of Panel Boards, Substation, Instrumentation, Automation etc .We started off as a small trading company, today Allied Resources Trading Est. is a leading name in all kinds of specialized cables, and all products related to electrical industries. With a work force dedicated to the needs of the customers, Allied Resources Trading Est. provides to the requirements of the customers with top most services. Our professional team of engineers and Sales Executive has extensive experience within the Electrical industry. As such, they possess in-depth understanding of the requirements of their respective clients and the market place to give the best service possible.

This Document represents Allied Resources Trading Est. products & capabilities, which are the key to our reputation for providing products and workmanship to the highest standards of quality, on time and within budget.

Our mission: We work towards maintaining customers' satisfaction by providing quality and reliable products and services in core business. We will pursue growth opportunities in the national, regional and international markets. We will fulfill company vision by maintaining quality management system and by striving for continuous improvement in all areas affecting our customers and suppliers.

Our vision: To be an innovative leading supplier in Saudi market and strive to fully develop in regional and other markets.

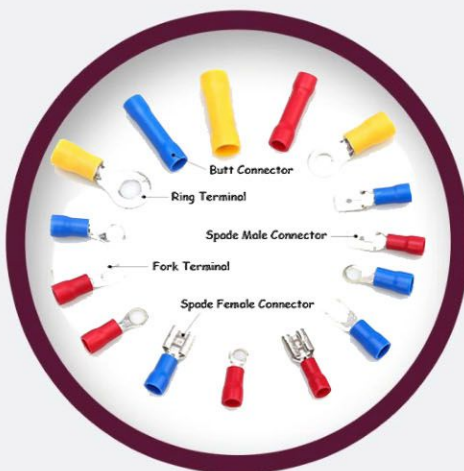

## PRODUCT LISTS

Terminal Lugs, Terminal Blocks, Flexible Wires, Power and Control Cables  
 Cable Glands, Cable Lugs, Connectors (LV & MV), Cable Ties, Cable Cleats,  
 Crimping Tools, Earthing & Lighting Protection Materials, EMT Conduits,  
 Junction Box & Accessories, Flexible Aluminium Conduits, Liquid Tight  
 Conduits, Liquid Tight Connectors, PVC Conduits, Mini Trunking & Accessories,  
 Cable tray, Cable Ladders, Unistrut Channel & Accessories, Channel Clamps,  
 Cable Laying Equipment's, Panel Board Accessories, Terminal Blocks, Insulators,  
 Din Rail, Push Button, Heat Shrinkable Cable End Caps, Termination Kits  
 (LV/MV), Heat Shrinkable Tubing, Shrinkable Tubing, Cable Joints (LV/MV),  
 Cable Box Glands, Insulating Boots, Earthing Kits, Fuses (HRC/MV) Sockets  
 Outlets, Industrial Locks, Latches, Hinges, Gaskets, Mechanical Pipes and  
 fittings, Receptacles, Grundfos Spares, Filters, Atlas Copco Spares,  
 Railways Equipments, Servo Motors.

## ENGINEERING SERVICES

- Preparation of schematic drawings of Protection and Control System.
- Preparation of Shop drawing from Engineer's drawing (Base Design).
- Substation control & protection drawing, Preparation of Schematic, general arrangement drawings, cable schedules, wiring tables
- Preparation of cable and termination schedule.
- Instrumentation -Preparation of instrumentation drawing & cable schedules.
- SCADA & Utility Communication System.
- Preparation of Drawings for all types of Utility Communication Equipments.
- Preparation of Shop drawings from Engineer's drawing for all type of utility Communication Equipments.
- Preparation of SCADA Point List.
- Preparation of SAS Point List.

## DRAFTING SERVICES

We expertise in the conversion of paper drawings to AutoCAD drawings, that can bestored and reviwed electronically, Our Conversion includes:

- AutoCAD Conversion (AutoCAD or Micro Station Conversion)
- Our CAD drafting services involve the use of latest releases of AutoCAD, MicroStation andother software tools. The final output is a fully editable multi-layer CAD format (DWG, DGN or DXF)
- Offering services for AutoCAD and Micro Station domains
- Converstion of all CAD Documents from PDF,tiff, jpeg, giff, bmp, png to a perfectly accurate multi-layer electronic CAD drawing.
- Raster(HARD Copy) to vector (Soft Copy) Conversation utilizing Vectorization.
- AutoCAD to Micro Station Conversion
- Micro Station to AutoCAD Conversion

## DOCUMENT OUTSOURCING SERVICES

We expertise in the conversation of paper drawings to AutoCAD drawings, that can be stored and reviwed electronically. Our conversion includes:

- Preparation of power point presentation.
- Arranging training documents & folders.
- Preparation of O&M Manuals
- Standardization of drawings according to clients standards
- B&W, Full-color Digital Copying, B&W Full-Color Digital Printing,
- Full-Color Digital Drawings Plotting.
- Document Design, Large-format color, Printing/Mounting,
- Booklets/Bindery/Finishing
- Hardcopy to Softcopy, Conversion/Scanning, Copying & Binding
